

Product designation				Float switches for dirty water
Product type designation				LVFSN1
Function				Emptying or filling
Counterweights				
Counterweight				Internal
Activation angle				15°
Relay outputs				
Number of relays			Nr.	1
Contact arrangement				1 changeover contact C/O- SPDT
Rated operational voltage AC (IE	EC)		VAC	250
Contact ratings				AC1 10A 250VAC AC15 4A 250VAC
Connections				
<u> </u>				
Maximum cable lenght			m / ft	10
Ambient conditions			m / ft	10
Ambient conditions Temperature			m / ft	10
Ambient conditions Temperature	ng temperature			
Ambient conditions Temperature Operatir		max	m / ft	+40
Ambient conditions Temperature Operatir	ng temperature temperature	max	°C	+40
Ambient conditions Temperature Operatin Storage		max max	°C	+40
Ambient conditions Temperature Operatin Storage Maximum operating pressure			°C	+40 80 5
Ambient conditions Temperature Operatin Storage Maximum operating pressure Maximum installation depth			°C	+40
Ambient conditions Temperature Operatin Storage Maximum operating pressure			°C °C bar	+40 80 5 50
Ambient conditions Temperature Operatin Storage Maximum operating pressure Maximum installation depth			°C °C bar	+40 80 5
Ambient conditions Temperature Operatin Storage Maximum operating pressure Maximum installation depth Housing			°C °C bar	+40 80 5 50 Neoprene H07
Ambient conditions Temperature Operatin Storage Maximum operating pressure Maximum installation depth Housing Cable material			°C °C bar	+40 80 5 50 Neoprene H07 RN-F3X1
Ambient conditions Temperature Operation Storage Maximum operating pressure Maximum installation depth Housing Cable material Float casing material			°C °C bar	+40 80 5 50 Neoprene H07 RN-F3X1 Polypropylene

LVFSN1B10

FLOAT SWITCH FOR DIRTY WATER, NEOPRENE CABLE, 10MT LONG

Compliance

IEC/EN 60730-1

IEC/EN 60730-2-15

Certificates

TÜV-SUD

ETIM classification

ETIM 8.0

EC001447 - (Fill) level monitoring relay
